4. Exterior colors and finishes.
5. Exterior lighting.
6. Solar panels, skylights, clearstorys.

C. Sections

1. Show critical relationship to topography, trees, drives and retaining walls.

D. Square Footages

Main Floor _____

Upper Floor(s) _____

Daylighted Lower Floor _____
 (1 full height wall)

Garage _____ Total _____

Out building _____ (Total must be greater than 2000)

E. Amenity Design

1. Fences
2. Retaining walls
3. Landscape
4. Other

F. When requested by ARC, submit sketch of the building, samples of materials and colors for review.

All completed checklist and application items must be delivered to a member of the Architectural Committee. A personal conference is required after submittal, before plans can be approved, to assure your understanding of an approval. Water tap fee

must be paid to the Willowbrook Metropolitan District prior to obtaining a building permit from the county. Septic system design approval, local planning department and building permit fees are a part of the county process.

IV. The undersigned acknowledges he has been advised:

- A. That with approval, temporary buildings, and construction trailers are permitted on the building site. Campers, travel trailers, mobile homes or other temporary quarters intended for living purposes are not permitted.
- B. It is the responsibility of the owner and/or contractor to remove all construction material and trash from the building site and complete final grading prior to issuance of a Certificate of Occupancy. All adjoining lots, meadows, open spaces, irrigation ditches, road banks and the like must be restored to their natural state if damaged in any way, including property corner survey pins.

Submit 3 copies of the above application and 3 copies of the building plans to the Architectural Control Committee along with an application fee in the amount of \$50.00.

A Five Thousand Dollar deposit is required to be made with the RRAC prior to granting water tap and the initiation of construction. This \$5,000.00 deposit is to assure that the applicant adheres to guidelines set by the Board and administered by the architectural committee. This deposit will be kept in an interest bearing account and balance to be refunded at the issuance of the Certificate of Occupancy less any amount to correct commitments made by the applicant and not accomplished.

OWNER OR REPRESENTATIVE'S SIGNATURE(S) AND RELATIONSHIP

Please note: Architectural Committee approval must be given to your plans prior to the beginning of the actual construction.

ARCHITECTURAL REVIEW COMMENTS (To be completed by RRHA AC).
